

## **T 3048 / PRELIMINARY CHARACTERISTICS:**

**Building material: 4mm thick. marine plywood,  
glass fiber and epoxy resin.**

**Hull length: 3,048 m**

**Lenght at DWL: 3,048 m**

**Lenght over all, LOA with rudder: 3,313 m**

**Beam max. : 2,70 m**

**Fwd freeboard: 0,355 m**

**Aft freeboard: 0,291 m**

**Draft min./max.: 22.5 cm / 74.4 cm**

**ONE FLOAT volume: 145l (100% of the displacement)**

**Displacement: 70 kg (preliminary)**

**Displacement (full loading) 145 kg**

**Sail area 8m<sup>2</sup> (including mast)**

**Unsinkable with total flotation foam**

**Transportable / Can beach**

**European Conception Category: D1**
